

## HIGH SCHOOL NOTES.

The work of the past week has been somewhat interrupted by the holiday on Tuesday. A large number of the teachers and students availed themselves of the opportunity to attend the state fair. A number of the English students made careful note of the various sights and used this material for short themes.

The first assembly of the year was held in the senior assembly room last Wednesday morning, and as all the four classes had gathered here the room was filled to its utmost capacity. The programme comprised short talks by Mr. Pattengill, formerly state superintendent of instruction in Michigan, and Dr. Boone of Boston, editor of Education. Dr. Boone chose as the theme of his talk the well known eastern proverb which deals with the various classes of the knowing and the ignorant. In applying its statements to school work, Dr. Boone emphasized particularly the necessity not only of an elementary, but also of a higher education. He urged students to fit themselves as thoroughly and fully as possible for their work in life, and assured them that many doors would be open to the young man or woman who was prepared to enter them. Dr. Boone quoted from statistics which had recently been compiled, showing that out of the men holding positions of trust and responsibility in the United States during a given number of years, 55 per cent had been college graduates. Dr. Boone's talk was full of information and helpful suggestions to the students. The programme closed with a few remarks from Mr. Christensen, after which the boys gave three cheers for the speakers and the usual high school yell.

Miss Rowe's beginning Greek class was given an oral review on Thursday, in which they did excellent work.

Mr. Garrett's physiography classes have finished the study of "Tides," and are now beginning the subject of "Rivers."

Four new reference books which will prove of great help to the physiography students are "The Rivers," "Lakes," "Volcanoes" and "Glaciers of North America," by Professor Israel Russell of the University of Michigan.

The physics students are now studying the subject of measurements. Some interesting facsimile copies of noted authors' manuscripts have been hung in Miss Duke's room the past week. Among the authors represented are Macaulay, Scott, Dickens, Carlyle and Addison.

The seniors met Monday after school and elected Robert Knox editor of the Red and Black. The president, Will Fowler, appointed the following constitution committee, which is to report this coming week: Frank Manning, Corydon Higgins, Earl Haveron, Rhea Rogers and Eleanor Engler.

At the Junior meeting Monday afternoon Ralph Brown was chosen president; Royal Martineau, vice president; Arthur Moreton, treasurer, and Edith Sutherland, secretary.

The football team left Friday afternoon for Logan, where they were to play the first game of the season with the Agricultural college on Saturday. The boys have been practicing faithfully and hope to make at least a good showing. The line-up is as follows: Right end, Edward Pearce; left end, Lyman Judson; right tackle, George Hahn; left tackle, Ben Harris; right guard, J. Hennossey; left guard, Fred Gundry; quarter back, Hans Hanson; right half back, Harry Bantz; left half back, Bernie Richardson; full back, Roy Weller. The substitutes are: Will Harris, Ellis Black, Mark Groesbeck, Charles Wolf and Vaughn Paul. Roy Weller is captain of the team and Will Fowler is manager.

Buses were given out for the first time on Friday to the old cadets. The recruits are making good progress under their various instructors.

A number of the teachers attended the meeting of the high school union held Tuesday morning at the university.

The individual programmes have been made out by the students this week and handed in at the office. Among the visitors at the East Side this week were: J. P. Creer, Spanish Fork; G. N. Childs, Lehi; J. M. Anderson, Joseph Hughes and F. L. Hickman, Payson; J. M. Jensen, Provo; J. L. Starke, E. S. Taylor, Salt Lake county; L. E. Eggersten, Springville; Jacob Magleby, Sevier county, and D. P. Howells, Tooele.

Visitors at the West Side this week were: Mr. Pattengill, Dr. Boone, Mr. Christensen, Osmon Justesen, Springville; J. A. Rens, Spanish Fork, and the Misses Dena Marousen and Mary Eversen, Spanish Fork; Mabel Knauss, Ogden, and Ida Alleman, Springville.

Clay Wallace has resumed his work at the east side after several days' illness.

Chester Colborn has been absent the past week on account of illness.

Howard Jones of the senior class entered school this week. He has just returned from a botanizing trip in Mexico.

Mabel Snyder, from the Park City High school, enrolled this week in the sophomore class.

Ruth Cameron has entered the freshman class of the commercial department.

Among the students who have been absent this week are Olof Erickson, Genevieve Tufts, Pauline Browning and Paul Stevenson.

Ethel Murphy, Jennie Reich, Orlean Sibert, Ida Moore and Robert Knox have returned to school after several days' absence.

## NO ESCAPE FOR PATRICK.

New York, Oct. 10.—Assistant District Attorney Gans, who has charge of the appeals department of the district attorney's office, said today in regard to the story that Albert T. Patrick, under sentence of death for the death of William Marsh Rice, might escape the sentence of the court on technicalities, that this was incorrect. Mr. Gans said:

"There is nothing in the contention that the court of appeals cannot rescind if it affirms the decision. It certainly can re-sentence."

## TOOK CARBOLIC ACID.

Chicago, Oct. 10.—Dressed in full uniform, Lieutenant John Duffy of the Chicago fire department was found dead today on the banks of Mud lake with a bottle of carbolic acid beside him. Duffy is said to have suffered from intermittent mental aberration as a result of injuries received through a fire that threatened the destruction of the Chicago packing house district.

## SHOP MEN LAID OFF.

Albany, N. Y., Oct. 10.—Three hundred men in the West Albany shops of the New York Central railroad were laid off today. This is said to be in accordance with an order affecting the entire Vanderbilt system between New York and Chicago, and means the laying off of 15 per cent of the shop force along the Vanderbilt lines. The reason for the reduction in force is not explained here.

## SHOT BY ACCIDENT.

Great Falls, Mont., Oct. 10.—Mrs. P. J. Mellic, wife of the United States commissioner and justice of the peace at Havre, accidentally shot herself with a 32-calibre pistol at her home today. She was brought here and is at Columbus hospital, where it is feared she cannot recover. The bullet passed along through the body just above the heart. It is claimed the shooting was accidental.

## CZAR AT DARMSTADT.

Berlin, Oct. 10.—The czar made a pleasant impression on the townspeople during his stay at Darmstadt. He walked tranquilly about the streets, attended by one or two adjutants, looked in the shop windows and often stood at a ground floor window of the old palace, smoking cigarettes and looking out at the people passing. The guardians of his person were rarely visible.

## M'KINLEY'S MONUMENT.

Adams, Mass., Oct. 10.—A monument to President McKinley, erected by the town, was unveiled today in the presence of thousands of persons from points throughout the Berkshire country. Among the speakers were John D. Long, who was secretary of the navy at McKinley's election; John L. Bates and Lieutenant Governor Curtis Guild, Jr.

## GALE OFF THE CAPES.

Washington, Oct. 10.—The weather bureau received a report from the signal station at Cape Henry, Va., today, saying that the wind was blowing seventy-two miles an hour and was carrying everything before it. The regular steamer from Norfolk, which arrived here this morning, reports the roughest experience in the history of the line, with one exception.

## CLAIMS CUT DOWN.

Washington, Oct. 10.—General Henry M. Duffield, the impire of the tribunal appointed to adjust the cases of Germany against Venezuela, called at the state department today and acquainted the officials with the findings of the commission. The total amount of the claims presented was 6,049,000 marks. The claimants, however, were awarded but 1,670,000 marks.

## Announcement! Keith-O'Brien Company

It is with exceeding pleasure that we announce the establishment of a Third Department for the Making of Dresses for Women.

The reputation of this branch of our industry is such, by reason of the high character of the gowns created by Madam Jones, that a second division, which covers another distinct field—that of fine tailor-made suits for women—became an obvious necessity. This second acquisition is under the direction of Mr. Berger, recognized as an expert of eminent ability. A third division is imperative. Madam Jones and Mr. Berger find it impossible to accommodate certain desirable business which seeks recognition. Therefore, that those who come to us may not be disappointed, Mrs. Jennie Landreth, an accepted dressmaker in the homes of the elite—a lady of exceeding ability in her art, of commendable taste, of keen conception of style, whose productions are the delight of fashionable women, has been engaged to assume charge of the department of dressmaking which is made possible by the increased business referred to.

Certainly we have reason to feel elated considering the immense dressmaking trade developed within a period of only seven months—the life of this institution

## Refined Modes.

Our refined modes in exclusive millinery has been a most interesting showing. Heavy sales in an unexpected degree attest in strongest measure that intangible style characterized each individual pattern. Aside from importations and New York's leading inventors, the beautiful displays which have elicited such emphatic exclamations of praise, include accurate copies and charming and original conceptions of our own designers. We show hats that are desirable for all purposes—each of a degree of excellence but varying in price.

Salt Lake women appreciate and wear hats which are in keeping with the best that is worn anywhere. With the establishment of this important acquisition to the store the standard of millinery has been raised. This is due to our employees' long trained experience in handling the very finest of importations and being experts in all that implies to millinery in the highest sense. Even the cheaper hats carry the impress of this extended experience.

## INFANTS' OUTFITS

An Exceptional Showing of Infants' Apparel.

We endeavor to make our babies' bazaar one of the most attractive and convenient corners of the big store. Mothers will find that it contains everything for the little ones and their comfort from the tips of their toes to the crowns of their heads we clothe them. Unless time hangs heavily with you, or you do

the work for the love of it, it doesn't pay to make infants' clothes at home. Of course it is inadvisable to buy the poorly made stuff, such as is frequently sold. Even the cheapest garment we sell is of worthy quality and neatly made.

We are as well prepared for the mother with a small allowance, as for her whose allowance is unlimited.

If you are not a resident of the city, and find it inconvenient to do your shopping personally, send us a list of your wants, stating the amount allowed and we assure you that the best judgment will be used in the selection of the outfit.

For the small sum of Ten Dollars we can furnish this neat little outfit,

fit, which should be seen to be appreciated:
